

Davidson K-6
Parent Involvement Policy

At Davidson K-6, we believe that active parent involvement is essential to student success. We are committed to fostering a partnership between families and the school to enhance learning experiences and create a supportive community. This policy outlines expectations and opportunities for parent engagement.

1. Attendance & Engagement

- Parents are encouraged to support regular student attendance by ensuring children arrive on time and are prepared for school each day.
- Families should communicate with school staff regarding absences and work collaboratively to address any attendance challenges.
- Parents are invited to attend school-wide events, including parent-teacher conferences, academic workshops, and student performances.

2. Volunteering Opportunities

- Parents are welcome to volunteer in various school activities, including classroom support, school events, library assistance, and mentoring programs.
- Volunteers must follow school guidelines, including completing a TUSD volunteer packet.
- Parents can contribute to school improvement initiatives by joining committees such as the Davidson Parent Club or Site Council.

3. Expressing Interest in Student Progress

- Parents are encouraged to stay informed about their child's academic and social development by reviewing progress reports, homework assignments, and teacher communications.
- Open communication with teachers and staff is key—families should actively participate in discussions about student goals, strengths, and areas for growth.

- Parents should create a positive home environment that supports learning by setting expectations, celebrating achievements, and encouraging curiosity.

4. Collaborative School-Home Partnership

- The school will provide resources, workshops, and support services to assist parents in engaging effectively in their child's education.
- Parents are encouraged to share feedback with school leadership to improve policies and programs that benefit all students.
- Together, we will cultivate a culture of respect, inclusion, and shared responsibility for academic success.
